

**Cardinal Health™ Single Sterile Products
and Solutions for Presource Procedural Packs**

OR Accessories

5/2020

Efficiency and adaptability are critical in the OR.

Presource® Products and Services offers an extensive product portfolio with thousands of medical solutions you need before, during and after surgery.

Products are available in pre-arranged packs or individual orders for easy customization. We provide a full range of sterile and non-sterile OR accessories such as skin markers, light handle covers and needle counters, offering you quality, performance and value every time.

Take any guesswork out of OR operations with Presource® Products and Services.

OR Safety

Ease adherence to Joint Commission standards with our drapes, needle counters and other safety products.

OR Essentials

The last thing you want to think about in the operating room is the efficacy of your equipment. Our comprehensive list of must-haves will put your focus on the task at hand, not the quality of the tools you're using. From marking pens to bandages, we have you covered.

OR Lap Sponges and Towels

Our low lint towels generate 99% less lint than standard cotton towels. Reduce cleanup and protect patient health with sponges and towels that are soft, absorbent and x-ray detectable.
