GENERAL CATALOGUE

VOLUME IV

2016

GENERAL INFORMATION

SELLING POLICY - ALMEDIC sells only to established dealers or distributors.

TERMS OF SALE - Our prices are competitive and current. However, due to fluctuating money markets, prices are subject to change without notice. All prices are F.O.B. our Montreal warehouse. Terms of sale are NET 30 DAYS from date of invoice.

QUANTITY DISCOUNTS - Discounts are indicated in the Price List. Special arrangements can be made for yearly contract purchases.

TAX - Prices do not include Tax. All taxes are extra.

SHIPPING POLICY - All orders are shipped from our Montreal warehouse within 24 hours after they are received. Unless your order specifies the type of shipping service desired, shipments will be made via the most economical route. Orders can be mailed to Almedic, phoned, or faxed in. When ordering, please include the correct Almedic Catalogue number.

MINIMUM ORDERS - Due to administrative and handling costs, we require all orders to have a minimum value of \$50.00.

WARRANTY - ALMEDIC supplies first quality instruments and equipment that must meet our rigid specifications. The following registered trademarks guarantee the quality of our products:

ALMEDIC®, AL®, ALSPHYG®, ALCARB®, MAGNA®, NOVA®, UTILITY®

RETURNS AND CREDITS - Goods may be returned for credit or exchange only after written authorization has been obtained. A written request to return goods should be sent to Almedic with a copy of the original invoice on which the goods were purchased. Any goods being returned for credit or repair must be sent back freight prepaid with our authorization number. Credit will be issued only if merchandise has been purchased within six months prior to date of return, and then only if it is in resaleable condition. A handling charge may apply on some returns. Claims for shortages or errors in shipments must be made within 5 days of receipt of merchandise.

SPECIAL ORDER ITEMS - Extended delivery time should be anticipated for all special orders. Orders for special items cannot be cancelled without our written permission.

DOUBLE HEAD STETHOSCOPE ECONOMY MODEL IN CARDBOARD BOX

- 10-1700 Nova® Double Head Stethoscope
with Black Tubing, economy model

DOUBLE HEAD STETHOSCOPE WITH STAINLESS STEEL CHESTPIECE

This Stainless Steel stethoscope provides excellent acoustic performance in all frequency ranges. Manufactured with first class workmanship from the finest quality materials. Dual frequency allows easy listening to both high and low frequency sounds by simply alternating the stem of the chestpiece.

10-1810 Black

DOUBLE HEAD STETHOSCOPE WITH ALUMINUM CHESTPIECE

A quality stethoscope with improved acoustics in all relevant frequency ranges. Double head chestpiece, special membrane for quality auscultation, chromium plated binaural which can be adjusted to customer's requirements. Overall length 30 inches 77mm. Supplied with replacement ear tips and membrane. Made in Germany.

10-2010 Black

10-2030 Blue

DOUBLE HEAD STETHOSCOPE PROFESSIONAL QUALITY WITH ALUMINUM CHESTPIECE

A deluxe stethoscope in a class of it's own. Improved acoustics in all relevant frequency ranges for both adults and children. Double chestpiece made of aluminum. Extra soft replaceable ear tips Overall length 30 inches 77mm. Made in Germany.

10-2110 Black

10-2130 Blue

PEDIATRIC**DOUBLE HEAD STETHOSCOPE****PROFESSIONAL QUALITY**

WITH STAINLESS STEEL CHESTPIECE

The pediatric stethoscope is designed to fit the individual needs of the practitioner and patient. The stethoscope has a small double head chestpiece for children and infants. The lightweight chestpiece has a special soft flat membrane, 36mm in diameter, with non-chill rings.

10-2200 Black

NEO-NATAL**DOUBLE HEAD STETHOSCOPE****PROFESSIONAL QUALITY**

WITH STAINLESS STEEL CHESTPIECE

This Neo-Natal stethoscope with double head chestpiece is designed for infants and newborn. It has improved acoustics for all frequency ranges. The strong tubing blocks extraneous noises. Made with high quality ear tips.

10-2220 Black

DOCTOR STETHOSCOPE

WITH ALUMINUM CHESTPIECE

This is a high quality stethoscope made from the finest materials. Designed for physicians to provide the best acoustics a stethoscope can offer. Hand crafted chestpiece, soft ear tips for maximum comfort. Made in Japan.

10-2300 Black

CARDIOLOGY STETHOSCOPE WITH STAINLESS STEEL CHESTPIECE LATEX FREE

This cardiology stethoscope is designed to detect systolic and diastolic heart sounds in the low frequency range. The thicker design of the tubing provides superior sound transmission. Complete with soft ear tips. The ideal acoustic stethoscope for the cardiologist and all medical professionals.

10-2400 Black
10-2404 Burgundy

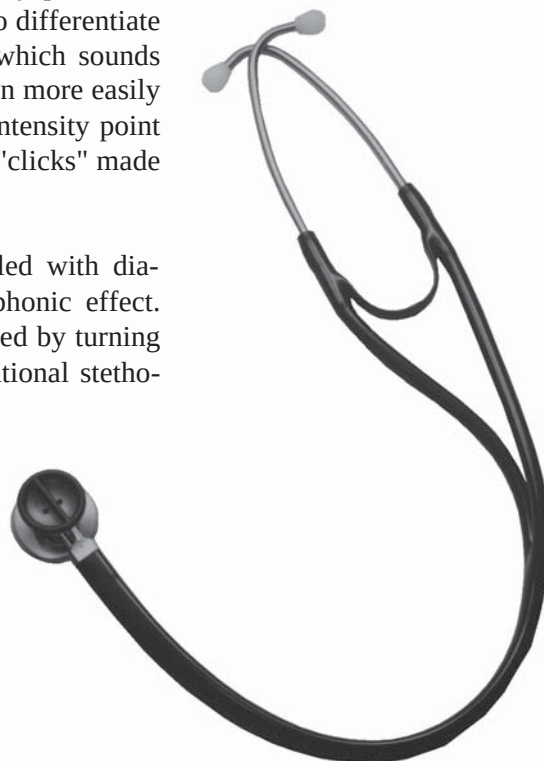

STEREOPHONETTE STETHOSCOPE "The World's First Stereophonic Stethoscope"

Clinical auscultation has determined that respiratory sounds and heart murmurs spread widely, while normal heart sounds and the sounds made by prosthetic valves are localized. With stereophonic auscultation you are able to differentiate between these two types. You can ascertain the direction from which sounds emanate. The Stereophonette also allows you to focus your attention more easily on faint sounds. With this device, determination of the maximal intensity point of a heart murmur can be easily done. Recognition of the opening "clicks" made by a prosthetic heart valve also becomes much simpler.

The Chestpiece: The monolithic construction of the bell, coupled with diaphragm microphones of stainless steel, creates a quality stereophonic effect. Selective use of the bell and the diaphragm microphones is achieved by turning the microphones around the central shaft, as is done with conventional stethoscopes.

10-2420 Double Head, with black tubing

**PEDIATRIC
DOUBLE HEAD STETHOSCOPE
WITH ALUMINUM CHESTPIECE**

The pediatric double head stethoscope is designed for use with children.

10-2510 Black

**PREMATURE INFANT
DOUBLE HEAD STETHOSCOPE**

The small chestpiece on this stethoscope is designed for the smaller body size of a premature infant, enabling it to provide a clearer sound.

10-2600 Black

**FETAL OBSTETRICAL STETHOSCOPE
WITH HEAD SUPPORT**

10-2800 Black

**BOWLES STETHOSCOPE**

The Bowles stethoscope is a standard stethoscope. Complete with a pair of soft ear tips, soft tubing and an outer spring.

10-3200 Black

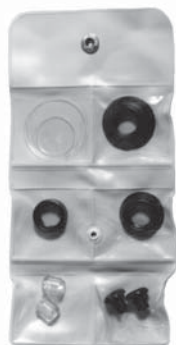

SPRAGUE-RAPPAPORT STETHOSCOPE

This unique interchangeable stethoscope enables maximum acoustic response for infants, children, or adults by simply changing the bell and diaphragm sizes. It comes complete with three extra bells, two extra diaphragms, and two extra pairs of ear tips. The extra parts are packaged in a plastic case. This stethoscope is available in both 18" or 22" length tubing.

FINGER PULSE OXIMETERS

Pulse Oximeters are a convenient, non-invasive measuring instrument, which measures the percentage of oxygen saturation in a person's blood (SpO_2), and their pulse. Simply place your finger on the sensor, and the Pulse Oximeter automatically analyzes the blood. Oxygen and Pulse readings are shown within a matter of seconds. For use at home, hospitals, clinics, and first aid. Available in both Adult and Child models. Both units have a low power consumption and turn off when not in use. The units use 2 'AAA' batteries, which are included.

20-4800 Finger Pulse Oximeter, Adult

20-4850 Finger Pulse Oximeter, Child

20-4800

20-4850

MINI OTOSCOPE SET
2.7v VACUUM BULB
WITH "AA" BATTERY HANDLE

Set Contains:

- Otoscope Head
- 5 aural specula and 1 nasal speculum
- Battery handle
- Complete in nylon pouch
- Batteries not included
- Made in England

23-1000

MINI OTOSCOPE SET
2.5v XENON BULB
WITH "AA" BATTERY HANDLE

Set Contains:

- Otoscope Head
- 10 reusable aural specula (5 x 2.5mm, 5 x 4.0mm)
- Battery handle
- Complete in nylon pouch
- Batteries not included
- Made in Germany

The production of ALMEDIC DIAGNOSTIC LAMPS is based on over 100 years of experience. Each lamp has been manufactured from the finest quality materials, with strict quality control at each stage of the manufacturing process, resulting in a lamp which is guaranteed to provide a perfectly uniform illumination.

The selection of lamps shown in this catalogue represent only those lamps which are most widely used in diagnostic and scientific instruments. Other lamps for all types of instruments can be supplied according to your sample or sketch. We invite all enquiries concerning lamps not shown in this catalogue.

SKIN CALIPER

This Skin Caliper is an easy and accurate way to measure body fat. It is spring loaded, comes with complete instructions.

32-1100

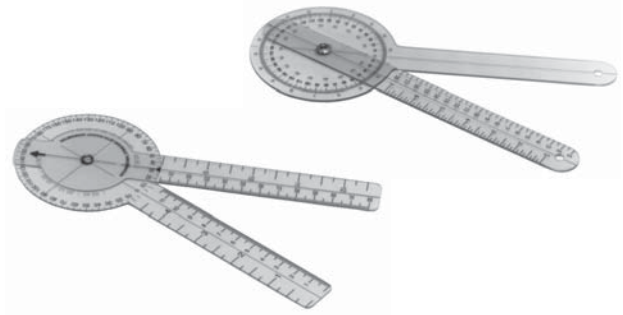

PLASTIC GONIOMETER

This transparent plastic goniometer, with a 360° scale, allows location of axis of motion, and observation of joint movement. Available in two sizes.

32-4000 22cm 8½"

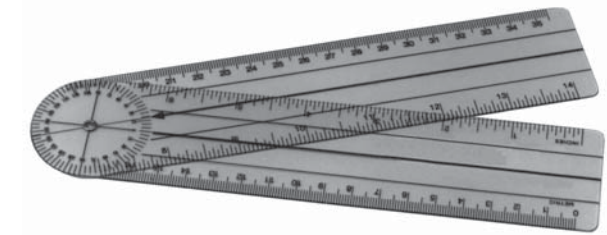

32-4100 32cm 12½"

PLASTIC GONIOMETER

This clear plastic goniometer has broad arms, with three linear stripes for limb centering and alignment. The two scales read 0-180° in each direction. Length 20cm 8".

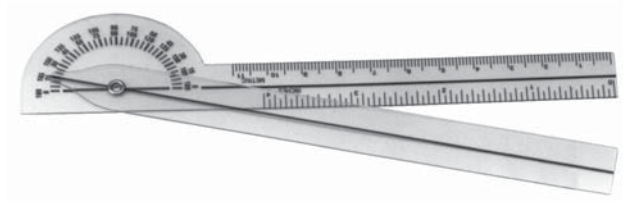

32-4110

PLASTIC GONIOMETER

This clear plastic goniometer is used for measuring small joints. It has a 0-180° scale, and is 17cm 6¾" long.

32-4120

FINGER GONIOMETER

This goniometer is used for measuring metacarpophalangeal and interphalangeal joints. The scale is divided in 5° increments, with a linear measure in inches and centimeters. Made from Stainless Steel. 14cm 5½".

32-4200

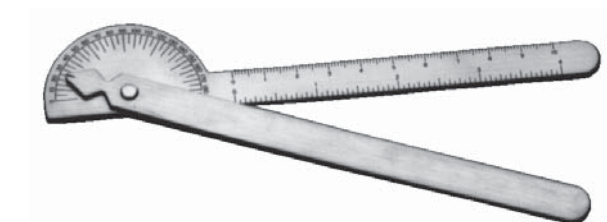

POCKET GONIOMETER

ROBINSON

This pocket goniometer is ideal for measuring small joints, such as fingers. It has a 0-180° scale, and is divided in 5° increments. Made from Stainless Steel. 17cm 6¾".

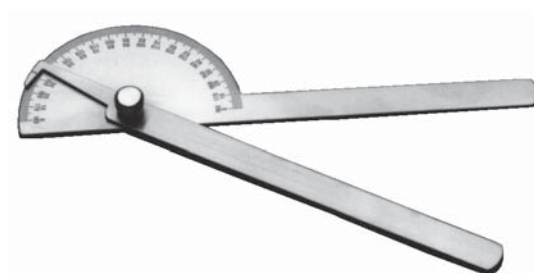

32-4300

GONIOMETER

This goniometer has two 180° scales, in opposite directions. It has an adjustable knurled knob which can vary the amount of tension of the arms, or lock them fully. Made from Stainless Steel. 20cm 8".

32-4400

GONIOMETER

This goniometer has a 0-180° scale, with 1° divisions. Made from Chromium Plated Brass and Stainless Steel. 35cm 14".

32-4500

GONIOMETER

This goniometer has a 360° protractor, with two 180° scales in opposite directions. It has a knurled knob which can be turned to adjust the amount of tension of the arms, or lock them completely. Made from Stainless Steel. 33cm 13"

32-4600

E.C.G. CALIPER

This Electro-Cardiogram Caliper measures up to 6 cm. Total length: 10cm 4"

32-4800

PHYSIOTHERAPY EXERCISE KIT

The Physiotherapy Exercise Kit (Model 32-5000) comes with 1 pair of handles (32-5050) and 3 different latex bands (32-5100, 32-5130, & 32-5140) stored in a convenient carrying case. The handle and exercise bands can also be purchased separately. The latex exercise bands are available in lengths of 2 meters, 5 meters, or 30 meters. Each thickness is identified by a separate color.

- 32-5000** Latex Physiotherapy Exercise Kit, Complete
32-5050 Handles only, for Latex Exercise Kit (Set of 2)

FINGER SPLINT

The Finger Splint features the same cushioned velcro straps and padded aluminum splint as the Fingertip Protector. It goes on in seconds, and holds the finger safely and securely. Extremely convenient, it provides all the protection of a standard finger splint, without the need of using gauze tape. One size: 6cm 2¼"

Blister Packed

- 50-6540 Finger Splint

In Plastic bag

- 50-6558 Finger Splint

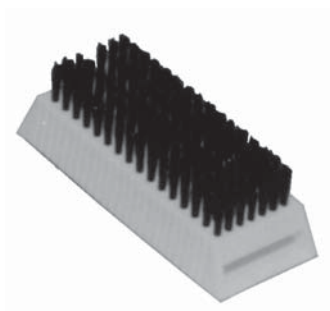

SCRUB BRUSH

Medical Quality Scrub Brush, similar to the type used in the operating room. Made with a strong plastic handle and good quality bristle brushes. Available blister packed on a display card, or bulk packed. Length 11cm 4½"

50-6700 Scrub Brush, Blister Packed

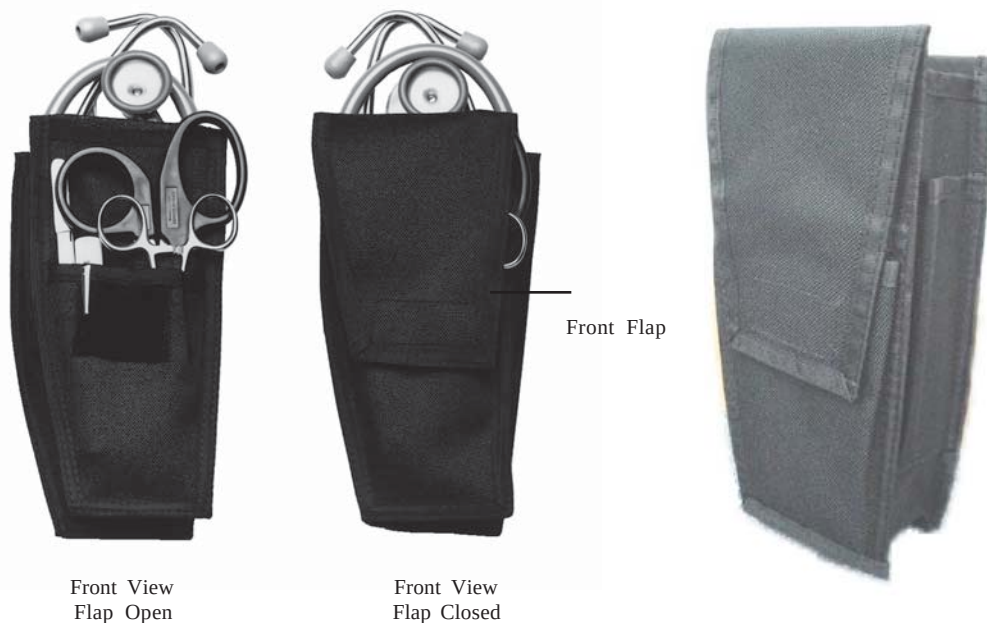

50-6710 Scrub Brush, Bulk Packed

HIP HOLSTER

This Hip Holster has 5 pockets which includes one large enough to hold a stethoscope. It is made from a strong washable black nylon that is stitched with a heavy gauge thread. The belt loop is a snap buckle and is reinforced with Velcro for extra security. A front safety cover with Velcro fastening prevents the instruments from falling out of the holster.

50-8400

CARRYING CASE FOR POCKET MASK

This carrying case is ideal for holding a pocket size resuscitator mask. It is made from a strong black nylon, and has a snap cover and belt loop.

50-8600

HIP CASE

The Almedic Hip Case is ideal for holding a variety of small medical items, such as penlights, masks, and keys. The zippered front opens to allow easy access in any emergency. A loop on the back of the case allows it to be attached to a belt, a wheelchair, or a walker. Made from black nylon, 5 x 3½" x 2". Available with or without your company logo.

50-8800

HIP POUCH

The AlmedicHip Pouch is made from a strong washable nylon, stitched with heavy gauge thread. The pouch has a loop and can be attached to your belt. It is ideal for holding two or three pairs of latex gloves. The flap closes with velcro, to secure the contents, and also opens quickly to allow easy access during an emergency. Made from black nylon, 4 x 4". Available with or without your company logo.

50-8850

EMERGENCY HOLSTER

The Emergency Hip Holster is made from a strong washable Black Nylon. It has one compartment with a cover, and can be used to hold a Penlight or Window Punch. The Holster attaches to your belt with a velcro loop.

50-8880 2 x 7"

front

back

FIRST AID POUCH

This First Aid Pouch can be used for holding a pair of disposable gloves and a face shield for emergency use.

50-8894 2¼ x 2¾"

**INSTRUMENT CASE**

This Instrument Case comes with 10 loops, which can securely hold a variety of medical products, including such items as Guedel Airways, penlights, scissors forceps, etc.

50-9000 8 x 1½ x 6½"

DUTY BELTS

The Duty Belt consists an inner belt and an outer belt. The outer belt is worn on top of the inner belt, and attaches to it with velcro. A variety of holsters and pouches can be attached to the outer belt. The outer belt can quickly and easily be taken off with the 3 step locking mechanism in the buckle. The construction and design of the 2 belts allows an even distribution of weight, resulting in less strain on the individual.

50-9500 Inner Belt with velcro, small, 38" long

50-9504 Outer Belt with velcro, small, 42" long

50-9510 Inner Belt with velcro, medium, 44" long

GLASS SLIDES AND COVER GLASSES

MAGNA® Microscope Glass Slides are manufactured from specially selected flat, uniform glass, which is resistant to scratching and fogging. Extreme care has been taken to grind the edges of Magna® glass slides to a perfectly smooth and even finish. These glass slides, with absolutely clean surfaces, free from oil film, dust, or chips of glass, allow for the preparation of excellent mounted specimens. Each package of 72 slides is wrapped in polyethylene to maintain cleanliness and protect them from moisture. Standard size, 75 x 25mm (3 x 1"), and 1mm thick.

NEUBAUER HEMACYTOMETERS AND COUNTING CHAMBERS

Neubauer Improved
Counting Chamber

Neubauer Improved
Bright-Line
Counting Chamber

The Neubauer Counting Chamber consists of 9 large squares of 1mm each (total area of ruling 9mm²). The central square of 1mm² contains 25 squares of 16 mini-squares 0.05 x 0.05mm each, and 0.1mm deep. The rulings of the **Bright-Line** Counting Chamber are the same as the standard counting chamber, however they are engraved with a dark, extremely thin, semi-transparent layer coating of metalized rhodium. The engraved lines stand out brightly from the dark area. In the **Bright-Line** Counting Chamber, due to the transparency, the corpuscles appear three dimensional, enabling a more accurate count.

62-1000

Neubauer Improved Hemacytometer set

consisting of:

- Neubauer Improved Counting Chamber
- 2 Optically plane cover glasses (20 x 26 x 0.4mm)
- 1 Blood diluting pipette for red corpuscles (erythrocytes)

NURSE'S POCKET PROTECTOR

This handy pocket protector for nurses and paramedics is made from a durable white vinyl. It is designed to hold a penlight, bandage scissors, hemostat, and pen. It has a snap pocket for change, and a key chain. Available by itself or complete with instruments and penlight.

85-5000 Nurse's Pocket Protector only

85-5010 Nurse's Pocket Protector complete with:

- 52-2010 Disposable Penlight, Black
- P-14 Lister Bandage Scissors, 5½"
- P-314 Splinter Forceps, straight, 4½"
- P-420 Kelly Forceps, straight, 5½"

NURSE'S CARRYING CASE

This carrying case, made from nylon, has four pockets designed to hold pens, penlights, forceps, and bandage scissors. The scissors can be attached to a velcro strap, enabling it to be snapped on and off quickly for emergency use. The carrying case has a loop on the back which can be used to attach it to a belt. It is ideal for nurse's and paramedics. Available by itself or complete with instruments and penlight.

85-6000 Nurse's Carrying Case only

85-6010 Nurse's Carrying Case complete with:

- 52-2010 Disposable Penlight, Black
- P-14 Lister Bandage Scissors, 5½"
- P-314 Splinter Forceps, straight, 4½"
- P-420 Kelly Forceps, straight, 5½"

ALMEDIC PODIATRY INSTRUMENT SET

This attractive felt-lined case is made from a top grade vinyl leatherette. It can accommodate as many as 10 instruments which are held in place with elastic straps. The case can be closed with a zipper to prevent instruments from falling out. The podiatry case may be ordered separately, or as a complete set with the following eight instruments:

A4-500 Almedic Podiatry Instrument Set, complete with the following 8 instruments:

- A4-232 Nail nipper, front cutting
- A4-238 Toenail clipper
- A4-242 Fingernail clipper
- A4-300 Nail or Bone rasp, file inside
- A4-310 Spatula, double ended
- A4-312 Packer, double ended
- A4-314 File, double ended
- A4-320 File, double sided

95-1100 Podiatry Case only

ALMEDIC CORN REMOVER

This Corn Remover, which has been carefully designed to adapt to your feet, provides a safe and easy way to remove corns and dry skin. The blades are replaceable, and are made from the highest quality steel. The Corn Remover can be easily disassembled for cleaning and for replacing the blade. The Corn Remover is available either with a plastic handle, blister packed on a display card, or with a stainless steel handle, packaged in a box.

Almedic Corn Remover

- 95-5000** with plastic handle, Blister Packed
- 95-5005** with plastic handle, in Plastic Pouch
- 95-5010** with stainless steel handle, Box Packed

Replacement Blades only for Corn Remover

- 95-5100** Blister Packed, Package of 20
- 95-5110** Bulk Packed, Package of 100

**ALMEDIC HAS THREE DIFFERENT LINES OF QUALITY SURGICAL
INSTRUMENTS TO SATISFY WHATEVER YOUR DEMAND IS**

ALMEDIC® GERMAN QUALITY

These Surgical Instruments are made in Germany by master craftsmen from the highest quality surgical steel available. Each instrument is individually checked with maximum precision for correct pattern, finish, and workmanship. The range of instruments available in German Quality includes all the basic standard instruments, as well as, specialty instruments for all areas in the hospital and medical field.

The catalogue numbers for German instruments begin with the letter 'A'

MAGNA® BRAND

Over the years, as German made instruments increased in price, hospitals, clinics, and doctors requested a less expensive but high quality range of instruments for use on the wards, in the emergency room, and wherever lower cost replacement instruments were required. In response to this demand, ALMEDIC entered into a close co-operation with selected manufacturers of fine surgical instruments, and developed the MAGNA® line of Surgical Instruments which appear and perform like the more expensive German Quality instruments. Great care has been taken to describe the instruments accurately. However, as these instruments are hand crafted, in some cases there may be minor variations of the indicated measurements.

The catalogue numbers for Magna instruments begin with the letter 'M'

UTILITY® BRAND

These instruments are low priced for maximum economy. The wide range of instruments includes most of the more popular high volume instruments used in hospitals and other areas of the medical field. Although these are the most economical instruments available, they are still of sufficiently good quality to make them readily acceptable for their intended medical, clinical, and first aid uses.

The catalogue numbers for Utility instruments begin with the letter 'P'

McINTOSH FIBER-OPTIC LARYNGOSCOPE BLADES WITH FLEXIBLE TIPS

The flexible tip of these Fiber-Optic Blades facilitates the lifting of the epiglottis and enables a clear visibility of the intubation process. In cases of difficult anatomical conditions, they provide improved visibility, and the lower lever action also reduces the risk of injury to the larynx and the teeth.

These blades are available in McIntosh sizes #3 or #4, and can be used with Fiber-Optic Handles A2-277 and A2-278, or LED Fiber-Optics handles A2-284 and A2-286.

- A6-524** size 24
- A6-525** size 25

DISPOSABLE SAFETY SCALPEL

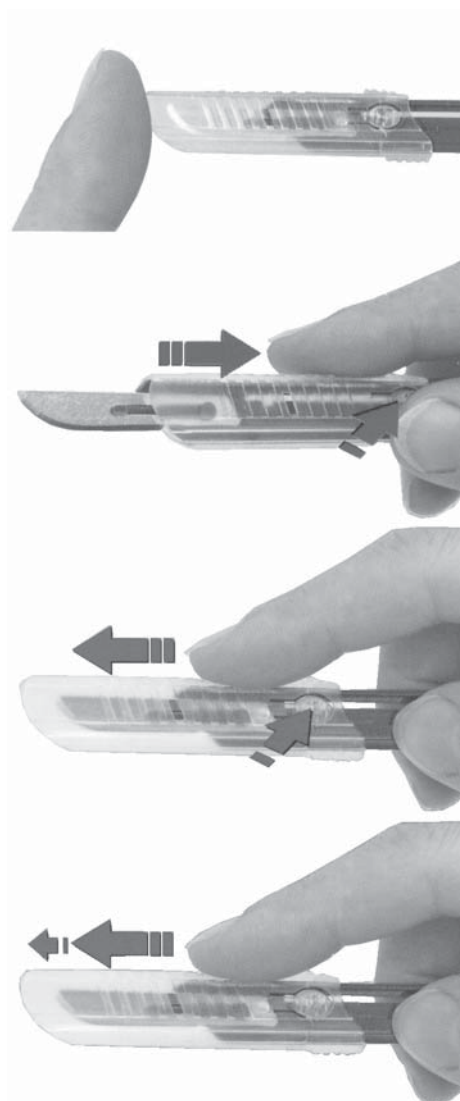

To use, simply press on the locking button and pull the protective cover backwards.

The protective cover can be replaced as often as required, or it can be permanently closed by pushing the cover over the locking button.

When permanently closed, the scalpel blade cannot be re-used, and the danger of injury during disposal is eliminated.

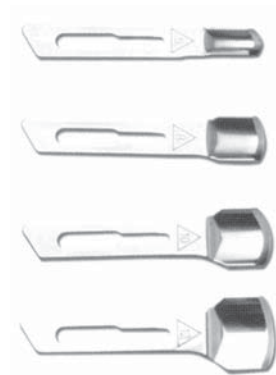

Available in 9 sizes, packed 10 sterile blades per box.

ABELSON CRICOTHYROTOMY CANNULA

The Abelson Cricothyrotomy Cannula is used to establish a rapid emergency airway for the treatment of acute obstructive asphyxia. The cannula is designed with an anatomical curve which enables the proper placement in the trachea. The "bayonet" cutting point minimizes skin snag. It is a fast and simple instrument to use, and should be included in all emergency kits for paramedics, doctors, dentists, first aid stations, and professional sports trainers.

SPRAY GUN CLEANER

This Spray Gun is the ideal instrument for cleaning laboratory glassware, pipettes, syringes, catheters, cuvettes, endoscopes, cyctoscopes, cannulae and a variety of other instruments and equipment used in clinics, laboratories, and medical offices, where the highest level of cleanliness and hygiene are required.

The Spray Gun uses either water or pressurized air, providing a quick, efficient, and inexpensive cleaning process. It features a new type of internal flow control mechanism, permitting a smooth increase or decrease of the water or air flow pressure. The maximum desired water or air flow can be set by adjusting the small knurled screw located behind the handle.

The standard set of 8 attachments come on a storage rack which can be mounted on the wall.

The tubing can be connected to the water tap with a $\frac{3}{4}$ " threaded connector ($\frac{1}{2}$ " connector is also available). A tabletop rosette (a threaded hollow cylinder) can be purchased separately to facilitate the installation of the Spray Gun in the sink or countertop. (Please Note: If the Spray Gun is to be connected to compressed air, the connector must be supplied by the company supplying the compressed air).

Cat No.

A420-1600	Set of 8 adapters for Spray Gun

P-930	Set of 5 Tuning Forks (P-900, P-902, P-920, P-922, P-924)		

A

ABELSON cricothyrotomy cannula.....	139
ADSON	
dressing forceps.....	150
tissue forceps.....	152
Air Release Valve, for blood pressure units.....	17
Airways, Guedel.....	70
ALLIS tissue forceps.....	153
Aneroid	
blood pressure units.....	10-15
gauges.....	17
Anesthesia face masks.....	75
Animal anesthesia masks.....	76
Applicator jar.....	95
Arterial forceps.....	158
Automatic ear syringe.....	138

B

BABINSKI percussion hammer.....	109, 160
BACKHAUS towel clamp.....	159
Bags	
shoulder, for oxygen units.....	71
medical, doctors.....	78-79
Bandage scissors.....	132, 145
Barber Scissors.....	122
Basins	
emesis, plastic.....	85
emesis, stainless steel.....	89, 102-103
foot, plastic.....	86
foot, stainless steel.....	97
wash, plastic.....	86
wash, stainless steel.....	96, 106
Bath thermometer.....	36
BAUMGARTNER needle holder.....	154
Bed pans	
plastic.....	84
stainless steel.....	88, 102
Belts, Duty.....	51
BERGER binocular loupe.....	110
Binocular loupe.....	110
BLACKS file.....	123
Bladders, for blood pressure cuffs.....	16
Blades	
laryngoscope.....	111, 113-115
post mortem.....	129
scalpel.....	127-130
stitch cutter.....	129
Blood pressure cuffs.....	16

Blood pressure units	
digital.....	18
electronic.....	18
manual.....	10-15
Bone	
cutting forceps.....	161
rasps.....	123
saw.....	161
Boot covers.....	41
BOWLES stethoscope.....	6
Bowls	
solution.....	100
sponge.....	96, 104, 106
BOZEMAN uterine dressing forceps.....	155
Brush scrub.....	47
BUCK neurological hammer.....	109, 160
Buckets.....	99, 105
Bulb, inflation, for blood pressure units.....	17
Bulbs, for diagnostic instruments.....	26-29

C

C.P.R. face shield.....	74
Calipers,	
E.C.G.	32
skin.....	30
Cannulas,	
for emergency tracheostomy, Abelson.....	139
nasal oxygen.....	68
Carafe, plastic.....	86
Cardiology stethoscope.....	5
Carmalt splinter forceps.....	154
Cart, for oxygen cylinders.....	71
Cases,	
emergency hip.....	48-50
for blood pressure.....	17
for dissecting instruments.....	57-58
for Guedel airways.....	70
for instruments.....	81-83
for nurses (carrying case).....	83
for pocket masks.....	48
for podiatry instruments.....	107
for surgical instruments.....	48, 81-83
nurse's carrying.....	83
Catheter	
introducing forceps.....	159
trays.....	90, 103-104
Centrifuge tubes.....	64
Chiropody instruments.....	107, 123-125

Clamps	
disposable	54
towel	159
Clip applying & removing forceps	155
Clippers, nail	121
Co-Polymer gloves	39
Coil tubing, for blood pressure units	17
COLLEGE pliers	135
Containers, storage	95
Corn remover	107
Counter, hand tally	60
Counting chambers, for hemacytometers	63
Cover glass forceps	60
Cover glasses,	
for microscope glass slides	62
hemacytometer	63
Cricothyrotomy cannula, Abelson	139
CRILE forceps	157
CRILE-RANKIN forceps	157
CRILE-WOOD needle holder	154
Crown and Collar scissors	133, 149
Cuffs	
for blood pressure units	16
for pressure infusion	18
Cups,	
denture, plastic	86
iodine	97, 104
medicine, plastic	85
medicine, stainless steel	97
Curettes,	
chiroprody	125
excavator	125
Cuticle	
nippers	118, 163
scissors	117
Cylinders, oxygen	66

D

Dams, dental	142
DE LEE HILLIS stethoscope	8
Dental	
dams	142
forceps	135
mirrors	141
pliers	135
scalars	141
scissors	133, 149
Denture cup, plastic	86
Diagnostic lamps	26-29
Diamond File	124

DIEFFENBACH serrefines	156
