Aspen Surgical

Hill-Rom

At its foundation, the practice of medicine is all about trust.

Patients put their trust in their physicians; physicians rely on their staff. And all over the world, medical professionals rely on our products as they care for their patients. That is an enormous amount of trust, and we work tirelessly to earn and keep that trust, every day.

We are Aspen Surgical, part of the Hill-Rom Surgical Solutions, and a leading manufacturer of surgical essentials and medical products for practices and providers all over the world.

Aspen Surgical products equip your O.R.'s from floor to ceiling, helping to create a safer and more efficient surgical environment. We are the company that delivers some of the most familiar brands in medicine: the brand behind the brands you trust.

## Blades and Scalpels

Physicians and hospitals have relied on the Bard-Parker® brand for more than 100 years. They choose Bard-Parker blades and scalpels for their exceptional precision and quality. Today, Aspen Surgical produces Bard-Parker surgical blades, handles, and disposable scalpels in a broad range of conventional and protected styles.

All Bard-Parker blades and scalpels are made from a proprietary stainless steel composition and a manufacturing process that result an exceptionally strong and precise surgical instrument. To ensure exceptional product quality and prompt delivery, we proudly produce Bard-Parker blades and scalpels in the United States, where our robust manufacturing capacity ensures a consistent, reliable product supply. You have good reason to depend on Bard-Parker.

## Bard-Parker® Conventional Blades

Bard-Parker Conventional Blades are both thoroughbreds and workhorses. These are the blades that physicians rely on day in and day out, in the O.R., the ER, labor and delivery, and throughout the medical facility.

- High-quality blades for exceptional control during incisions
- Bard-Parker's exclusive carbon steel Rib-Back® design available for many blades
- Reusable handles available for every blades size
- Foil pouch packaging with a unique inner liner for maximum protection of both the blade and the end user
- Not made with natural rubber latex and intended for single-use

# Bard-Parker® Protected Blade System

Sharps injuries can occur at any time: prior to, during, or after a procedure. The Bard-Parker protected blade system helps protect your staff from all of them. We designed the system with a similar weight and feel to our convetional products. It even uses the same stainless steel blades, but adds a locking retractable shield that features simple, one-handed activation.

- Similar weight and feel to our convetional scalpel
- Same stainless steel blade as our convetional scalpel
- Locking retractable shield with easy one-handed activation
- Long handle available with select blade sizes
- Not made with natural rubber latex and intended for single-use

# Colby™ Fluid Management Products

Our Colby™ line provides a convenient and effective means of managing infectious waste fluid generated during wet procedures. Our products help to reduce the likelihood of injuries associated with wet floors. They aid in protecting healthcare professionals and housekeeping personnel from contact with contaminated substances and help support your efforts to comply with OSHA's Bloodborne Pathogens Standard. Our products do not change the contents of medical waste, but rather help your team to more effectively contain it.

## SurgiSafe® Absorbent Floor Mats

- Help keep floors clean, dry, and slip-free, even during fluid intense procedures
- Absorb irrigants, blood, and bodily fluids through unique wicking, absorbency, and fluid retention properties, while conforming to uneven floor surfaces without bunching
- Help protect your staff from slips, trips, and falls in the operating room
- Help reduce staff exposure to infectious waste
- Help eliminate re-using blankets and towels on patients
- Help reduce O.R. turnaround time
- Contain fluid in one area for easy clean up
- Non-Sterile, intended for single-use, and not made with natural rubber latex

### SurgiSafe® Specialty Absorbent Floor Mats

# ErgoSupport™ Patient Transfer Board

The ErgoSupport™ Patient Transfer Board is a lightweight device designed to make lateral patient transfer easier for O.R. staff, and help make it more comfortable for the patient. It's designed to be more comfortable for patients than traditional metal roller boards because of its soft foam core. It is also lightweight, for easy transportability and storage. In addition, Aspen Surgical patient transfer boards are available in three sizes to accommodate different patient transfer needs throughout the hospital.

Ideal for use with:

- Transferring patients from O.R. tables to stretchers
- Transferring patients from stretchers to hospital beds
- Comfortable – soft core with no hard metal rollers
- Lightweight – no lifting required, even with your heavy patients1
- Simple – uses same or similar transfer technique as those used with metal roller boards
- Fowler Position Transfer – long transfer board allows for transfer in seated position
- Foldable – long transfer board folds for easy storage and set-up
- Strap – carry this lightweight device on your shoulder and keep your hands free
- Resilient and sturdy – durable material protects against end cap breakage
