

# OPTIPRO™ GEL INSTRUMENT PRE-CLEANER

INSTRUMENT REPROCESSING

A ready-to-use surgical pre-cleaner that helps remove heavy soils from surgical instruments, maintains moisture during transport, and protects valuable instruments.

## Strong Performance

- ▲ Advanced gel technology clings to heavy soils and keeps them from drying on instruments
- ▲ Dissolves blood and fat, making removal from instruments fast and effective
- ▲ Neutral pH allows for safe use with most instrumentation material
- ▲ Fragrance-free formula provides better staff acceptance

## Superior Technology

- ▲ Non-aerosol pressurized Bag-on-Valve container uses inert compressed air to dispense product\*
- ▲ Blue color makes it easy to ensure uniform coverage of instruments
- ▲ Gel form avoids splashing of liquid during transport
- ▲ Ready-to-use, convenient and portable for OR application

## Sustainable Advantage

- ▲ Phosphate-free formula to help reduce environmental impact

\*No propellant mixes with product
